

| STATUS | STATE | REGION | COMPONENTS | YEAR ENACTED |
|---|---|-----------|------------|--------------|
|  Not Enacted | Alabama | Southeast | | |
| | Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | | | |
| | | | | |
| | | | | |
|  Not Enacted | Alaska | West | | |
| | Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | | | |
| | | | | |
| | | | | |
|  Not Enacted | Arizona | Southwest | | |
| | Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | | | |
| | | | | |
| | | | | |
|  Not Enacted | Arkansas | Southeast | | |
| | Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | | | |
| | | | | |
| | | | | |

| STATUS | STATE | REGION | COMPONENTS | YEAR ENACTED |
|---|---|-----------|------------|--------------|
|  Not Enacted | California | | | |
| | Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | West | | |
|  Enacted | Colorado | | | |
| | The Building Performance Colorado program requires buildings greater than 50,000 square feet to reduce emissions 7% by 2026 and 20% by 2030 from a 2021 baseline. Establishing Policies <ul style="list-style-type: none"> • SB 21-1286 (2021) • 5 CCR 1001-32 (2023) • Colorado's Building Performance Program | West | | 2023 |
|  Not Enacted | Connecticut | | | |
| | Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | Northeast | | |

| STATUS | STATE | REGION | COMPONENTS | YEAR ENACTED |
|---|--|-----------|------------|--------------|
|  In-Progress | Delaware Delaware will receive \$10M to develop and adopt a building performance standard through the federal Inflation Reduction Act's Support for Building Energy Codes and Innovative Codes. | Southeast | | |
| | Establishing Policies <ul style="list-style-type: none"> • Inflation Reduction Act Support for Building Energy Codes and Innovative Codes – Round 2 (2024) | | | |
|  Not Enacted | Florida Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | Southeast | | |
| | | | | |
|  Not Enacted | Georgia Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | Southeast | | |
| | | | | |

| STATUS | STATE | REGION | COMPONENTS | YEAR ENACTED |
|---|--|---------|------------|--------------|
|  In-Progress | Hawai'i Hawai'i will receive \$18.1M to develop and adopt a building performance standard through the federal Inflation Reduction Act's Support for Building Energy Codes and Innovative Codes. | West | | |
| | Establishing Policies <ul style="list-style-type: none"> • Inflation Reduction Act Support for Building Energy Codes and Innovative Codes – Round 1 (2024) | | | |
|  Not Enacted | Idaho Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | West | | |
| | | | | |
|  Not Enacted | Illinois Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | Midwest | | |
| | | | | |
|  Not Enacted | Indiana Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | Midwest | | |
| | | | | |

| STATUS | STATE | REGION | COMPONENTS | YEAR ENACTED | |
|---|-----------|-----------|---|--------------|--|
|  Not Enacted | Iowa | Midwest | Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | | |
| | Kansas | | | | |
| | Kentucky | Southeast | | | |
| | Louisiana | | | | |
|  Not Enacted | | Southeast | | | |

| STATUS | STATE | REGION | COMPONENTS | YEAR ENACTED |
|---|--|-----------|-----------------------|--------------|
|  Not Enacted | Maine Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | Northeast | | |
| | | | | |
|  Enacted | Maryland The Building Energy Performance Standard requires buildings larger than 35,000 square feet to reduce direct emissions from buildings by 20% by 2030, and to achieve net-zero emissions by 2040. | Southeast | Establishing Policies | 2024 |
| | <ul style="list-style-type: none"> • SB 528 - Climate Solutions Now Act of 2022 (2022) • COMAR 26.28.01 - .04 (2024) • Building Energy Performance Standards | | | |
|  In-Progress | Massachusetts Massachusetts will receive \$3M to develop and adopt a building performance standard through the federal Inflation Reduction Act's Support for Building Energy Codes and Innovative Codes. | Northeast | Establishing Policies | |
| | <ul style="list-style-type: none"> • Inflation Reduction Act Support for Building Energy Codes and Innovative Codes – Round 2 (2024) | | | |

| STATUS | STATE | REGION | COMPONENTS | YEAR ENACTED |
|---|--|-----------|------------|--------------|
|  In-Progress | Michigan Michigan will receive \$20M to develop and adopt a building performance standard through the federal Inflation Reduction Act's Support for Building Energy Codes and Innovative Codes. | Midwest | | |
| | Establishing Policies <ul style="list-style-type: none"> Inflation Reduction Act Support for Building Energy Codes and Innovative Codes – Round 2 (2024) | | | |
|  In-Progress | Minnesota Minnesota will receive \$8.5M in funding through the Inflation Reduction Act's Support for Building Energy Codes and Innovative Codes to adopt, implement, and enforce a building performance standard to reduce emissions from existing buildings by 50% by 2035. | Midwest | | |
| | Establishing Policies <ul style="list-style-type: none"> Inflation Reduction Act Support for Building Energy Codes and Innovative Codes – Round 1 (2024) | | | |
|  Not Enacted | Mississippi Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | Southeast | | |
| | | | | |

| STATUS | STATE | REGION | COMPONENTS | YEAR ENACTED |
|---|---|---------|------------|--------------|
|  Not Enacted | Missouri Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | Midwest | | |
| | Montana Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | | | |
| | Nebraska Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | | | |
| | Nevada Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions. | | | |
