STATUS	STATE	REGION	COMPONENTS	YEAR ENACTED
Enacted	Vermont The Regional Greenhouse Gas Initiative (RGGI) covers the electricity sector. Pursuant to Act 148 (H.868), the state is considering whether to expand regional cap-and-invest program to other sectors, potentially including transportation and heating. Establishing Policies • Vermont CO2 Budget Trading Program Regulations (2018) • The Regional Greenhouse Gas Initiative (RGGI) • H.868 (2024)	Northeast		2005

Virginia

The Clean Energy and Community Flood Preparedness Act authorized Virginia to join the Regional Greenhouse Gas Initative, a cap-and-trade program that covers the electricity sector. Virginia was a participating state from 2021-2023. In June 2023, the Air Pollution Control Board voted to advance Governor Youngkin's proposal to withdraw from RGGI. In November 2024, a judge ruled that Virginia can't withdraw from RGGI without the state legislature's authorization. The ruling stated the state's Air Pollution Control Board exceeded its authority when it voted to exit the program.
