

STATUS	POLICY	POLICY AREA	POLICY CATEGORY	YEAR ENACTED
Clean Energy and Renewable Portfolio Standards				
 Not Enacted	Clean energy standards and renewable portfolio standards set a target for a specific amount of clean or renewable electricity the state must generate by a certain year, often with incremental targets over time.	Electricity	Energy Plans and Targets	
Electricity Greenhouse Gas Emissions Reduction Targets				
 Not Enacted	Electricity greenhouse gas (GHG) emissions reduction targets are set by a state to limit GHG emissions in the electricity sector. These targets aim to reduce emissions by different amounts over time, often expressed as percentage relative to a baseline year.	Electricity	Energy Plans and Targets	
Clean Energy Plans				
 Not Enacted	Clean energy plans are documents that outline the policies and strategies states can implement to meet clean energy targets. Draft plans are often published first, and after a period of public comments and revisions, a final plan is released.	Electricity	Energy Plans and Targets	

STATUS	POLICY	POLICY AREA	POLICY CATEGORY	YEAR ENACTED
 Not Enacted	Distributed Generation Carve-out The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into “components”, which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled. Establishing Policies <ul style="list-style-type: none"> • SPOT – Generation Carve-outs in Wyoming Policy Components  0/5	Electricity	Clean Energy Generation	
 Partially Enacted	Net Metering The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into “components”, which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled. Establishing Policies <ul style="list-style-type: none"> • SPOT - Net Metering in Wyoming • SPOT - Aggregate Net Metering in Wyoming Policy Components  4/11	Electricity	Clean Energy Generation

Shared Renewables				
 Partially Enacted	<p>The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into “components”, which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled.</p> <p>Establishing Policies</p> <ul style="list-style-type: none"> • SPOT - Shared Renewables in Wyoming <p>Policy Components</p>  <p>2/6</p>	Electricity	Clean Energy Generation	
Community Choice Aggregation				
 Not Enacted	<p>Community choice aggregation allows local governments to procure power on behalf of their residents, businesses, and municipal accounts from an alternative supplier while still receiving transmission and distribution service from their existing utility provider.</p>	Electricity	Clean Energy Generation	
Energy Storage Targets				
 Not Enacted	<p>Energy storage targets establish procurement targets for energy storage systems by a certain date, often with interim targets. Targets can vary from broad megawatt (MW) requirements to more specific mandates that focus on the adoption of certain storage technologies.</p>	Electricity	Transmission, Distribution, and Energy Storage	

STATUS	POLICY	POLICY AREA	POLICY CATEGORY	YEAR ENACTED
Interconnection Standards				
 Not Enacted	<p>Wyoming received an F grade from Freeing the Grid.</p> <p>Establishing Policies</p> <ul style="list-style-type: none"> • Freeing the Grid Wyoming Grade (2023) 	Electricity	Transmission, Distribution, and Energy Storage	
Coal Phaseouts				
 Not Enacted	<p>Coal phaseouts establish a target year by which states must end coal-fired power generation.</p>	Electricity	Coal Retirement	
Coal Plant Securitization				
 Not Enacted	<p>Coal securitization is a financing tool that allows utility companies to refinance debt they issued to build coal plants and close the facilities early without taking a financial hit or passing costs on to ratepayers.</p>	Electricity	Coal Retirement
