

STATUS	POLICY	POLICY AREA	POLICY CATEGORY	YEAR ENACTED
 Not Enacted	Residential Energy Codes Residential energy codes are statewide building codes that dictate the energy performance requirements of newly constructed residential buildings.	Buildings and Efficiency	Building Codes	
	Commercial Energy Codes Commercial energy codes are statewide building codes that dictate the energy performance requirements of newly constructed commercial buildings.	Buildings and Efficiency	Building Codes	
	Stretch Building Energy Codes Stretch building energy codes are an optional, more stringent building code established by the state that local jurisdictions can adopt to require that newly constructed buildings are more efficient than the baseline state codes.	Buildings and Efficiency	Building Codes	
	Appliance Standards Appliance standards set minimum energy and water conservation requirements for appliances and equipment.	Buildings and Efficiency	Building Standards	
	Building Performance Standards Building performance standards establish energy and/or greenhouse gas performance targets for existing buildings in a state. These targets increase in stringency over time, leading to efficiency improvements in buildings to conserve energy and reduce emissions.	Buildings and Efficiency	Building Standards	

STATUS	POLICY	POLICY AREA	POLICY CATEGORY	YEAR ENACTED
 Not Enacted	Clean Heat Standards Clean heat standards establish a performance standard requiring heat providers to deliver a gradually-increasing percentage of low-emission heating services to customers.	Buildings and Efficiency	Building Standards	
 Enacted	Energy Efficiency Resource Standards (EERS) Electric utilities are subject to a voluntary annual energy savings targets of 1.9%. Gas utilities are not subject to an EERS. Establishing Policies <ul style="list-style-type: none">• 4 CSR 240-20.094(2) (2018)	Buildings and Efficiency	Building Efficiency	2018
 Enacted	Property Assessed Clean Energy (PACE) Missouri has enacted residential and commercial PACE-enabling legislation and has active programs. Establishing Policies <ul style="list-style-type: none">• RSMo § 67.2800 to 67.2840 (2010)	Buildings and Efficiency	Building Efficiency	2010

STATUS	POLICY	POLICY AREA	POLICY CATEGORY	YEAR ENACTED
 Partially Enacted	Weatherization Funding The State Policy Opportunity Tracker (SPOT) breaks clean energy policies down into “components”, which are binary questions to evaluate policy quality. Higher quality policies have more of their SPOT components fulfilled. Establishing Policies <ul style="list-style-type: none"> • SPOT - Weatherization Funding in Missouri Policy Components  2/4	Buildings and Efficiency	Building Efficiency	
 Not Enacted	All-Electric Buildings All-electric buildings policies require new buildings to be constructed with all-electric heating, cooling, and cooking systems to transition away from fossil-fuel use in buildings.	Buildings and Efficiency	Building Electrification
