Climate Bureaucracy

 Not Enacted

Climate bureaucracy consists of dedicated climate offices and staff, interagency working groups, task forces, and other bodies made up of government staff. These bodies are often responsible for writing a state's climate plan and implementing the policies and strategies identified to meet its climate targets.

Energy Efficiency Resource Standards (EERS)

Electric utilities are required to achieve a statewide energy savings target for 2021-2026 that is equivalent to 3.1% of 2009-2010 statewide energy sales. Energy savings targets vary by utility, ranging from 2.4% to 3.5% for 2021-2026. For 2026-2031, electric utilities must achieve a statewide energy savings target of 2.25%, with utility-specific targets ranging from 1.86% to 2.82%.

Gas utilities are not subject to an EERS.
